Reliable | Bespoke | Dedicated

Why Alfonica?

Alfonica understands the unique communication needs of educational institutions. Our tailored telecom solutions are designed to enhance efficiency and provide seamless learning experiences for students and staff by bridging the digital divide through reliable connectivity, unified communications, and modern technology.

Our Solutions

Hosted Phone Systems

Cloud-based phone systems include CRM integrations into most Educational systems, bringing efficiency into classrooms and school premises. Our **100% hosted** solution is designed to streamline workflows and improve your staff's ability to focus on what matters most: teaching and learning.

Superfast Broadband

We work hand-in-hand with educational institutions across the UK to boost connectivity for a better student experience. Our reliable superfast broadband services offer **high-speed connection** capabilities to enhance teacher-student communication.

Bulk SMS

Improving parent-staff communication has never been easier. Our **bulk messaging** solution supports instant SMS notifications and incorporates advanced features like WhatsApp, chat integration and customisable SMS campaigns, catering to your unique educational institution needs.

Mobile

We offer a wide range of mobile packages to meet your exact requirements **all in one bill**. We partner with all major UK networks, allowing us to design a bespoke mobile solution, including international roaming packages, SIM only contracts, handsets, and more.

All Day Answer

Need a way to manage morning calls more efficiently without the morning rush and ease the burden on staff? Alfonica's **24/7 call handling** cost-effective solution can manage your overflow calls, book appointments, and oversee all your administrative tasks all year round.

81%

of students believe that digital learning technology has contributed to their educational success.

ZIPDO, Education Report

“

We use Alfonica for our school texting system and are extremely pleased with the quality of the service they are able to provide.
